FOURTH NATIONAL CHILDREN'S ON-THE-SPOT CHEMISTRY
POSTER MAKING COMPETITION

The Philippine Federation of Chemistry Societies, Inc. (PFCS), in cooperation with the different universities will hold its *Fourth National Children's On-the-Spot Chemistry Poster Making Competition* with the theme *Health, Energy and Chemistry* on February 15, 2014 at 8:00 a.m. to 12:00 noon at different venues nationwide.

The Competition aims to:

1. contribute to a greater public interest in and appreciation of chemistry, particularly among the youth;
2. recognize elementary pupils with inherent artistic talents; and
3. offer a venue for social and intellectual interaction among them.

The Competition is part of the Chemistry Week Celebration. It has two main activities:

1. Talk on Special Topics in Chemistry

An invited speaker from the host school will deliver a talk about an interesting Chemistry topic related to the theme. This will be done before the participants engage in the actual poster contest.

2. On-The-Spot Chemistry Poster Making Competition

This will be conducted after the talk. All posters should relate to the theme stated above.

The target participants to this activity are Grades 4 and 7 pupils from both public and private schools nationwide.

Participation of both public and private schools shall be subject to the *no-disruption-of-classes policy* as stipulated in DepEd Order No. 9, s. 2005 entitled *Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith*.
